Paul Bouisset
Interaction Design Student

+33 6 18 88 80 67   p.bouisset@lecolededesign.com

> " I am a young French Interaction design student at l'école de design de Nantes. More than studies, I am fond of user-centered design, creative code, data-visulization, prototyping and I like to play on the frontier between tangible and digital worlds. "

EXPERIENCE

SENSEable City Lab, MIT
Aug 2015- Now, Boston

As an Interaction designer I am working with the lab on cross disciplinary projects, data visualisation, product design, web design, app development and design. With my skill I help the lab team to present their work to the public through web experience or data visualisation.

WIZTIVI UX UI Internship
Aug-Oct 2014, France

Wiztivi is a company specialized in innovative television experiences and interfaces. Discovered a lot on low input user experiences and user interfaces. Production of presentations for clients to show my projects for the company.

EDUCATION

2015

Third year in Interaction Design
2014-2015

Continue my studies in Interaction Design throught projects on connected objects, apps, data vizualisation, and preparation of my Bachelor's Degree

2014

Second year in Interaction Design
2013-2014

Specialization in Interaction and started to develop my skills in code, Web design and creation of innovative services. Ranked 2/54

2013

Foundation studies at l'école de design de Nantes
2012-2013

Started my studies, discovered new ways of thinking and experimented product design, spacial design and graphic design.

2012

High school diploma
2011-2012

Diploma in economic and social sciences. Learned a lot about modern economics.

ABOUT ME

It is my **curiosity** and my **passion** for modern issues which lead me to learn Interaction Design.

Motivated and **hard worker**, I like **team** working because I think this is the best way to find solutions. I am also **indepedant** and I am used to working in **autonomy**.

LANGUAGES

French
English **TOEIC 870**
Spanish

SKILLS
I think understanding all the facets of the design process is essential

Gephi   D3.js
DATA VISUALISATION

Open Framework
Processing
CREATIVE CODE
Leap Motion

Html
WEB DESIGN
Css
JavaScript

USER EXPERIENCE
Wireframe

PROTOTYPING
Arduino
After Effect

GRAPHIC DESIGN
Illustrator
Photoshop

VIDEO MAPPING
MadMapper
Modul8

HOBBIES

Numeric Art   Animation   Data Visualisation   Electronic Music
