

Designer and creative developer specialized in web design, data visualization and interactive exhibits.

Skills

Data visualization
Web Development
Web Design / Animation
Creative Code
Interactive Installation
UX UI
Motion Graphics

About me

My work evolve at the intersection between design, art and research. I love to experiment with technology, not only as tool but as subject to question its application and implication.

Working collaboratively or in autonomy accross disciplines, I design and develop solutions with a strong emphasis on clean, simple design and meaningful interactions.

Tools

HTML/CSS/Javascript
D3js
Vue.js /Pixi.js/GSAP
Open Frameworks/ Processing
Arduino
Adobe XD/Sketch
After Effect

Experiences

FELD Studio for digital crafts

Interaction Designer

03.17 - 12.18 Berlin, DE

Working accross disciplines to design and develop interactive exhibits, spatial installation, web application and exhibition pieces.

Senseable City Lab, MIT

Data visualisation Visiting Researcher

08.15 - 02.16 Boston, USA

Helping MIT researchers to visualize large quantity of data. I developed web based data visualization platforms. Alone or in team I work on the full spectrum of data visualization from collection, analysis to user interface development.

WIZTIVI

UX-UI Internship
